Professional Summary

MCA candidate with hands-on experience building full-stack and mobile applications using React, React Native, Node.js, Firebase, and MongoDB. Proven ability to design and ship scalable, user-focused solutions, including an Android nutrition-tracking app serving 1,000+ food items and a full-stack academy management system supporting 100+ users. Strong foundation in REST APIs, database design, and cloud platforms (AWS), with a track record of translating requirements into working, production-ready code.

Experience

Frontend Developer Intern

[May 2024 – June 2024]

Techplement

Remote

- Built responsive web interfaces using HTML, CSS, and JavaScript, improving cross-device UI consistency.
- Developed reusable frontend components, improving usability and page responsiveness.
- Collaborated with senior developers on debugging and code reviews using Git.

MERN Stack Developer Intern

[Feb 2026 – May 2026]

SRS Trust

Remote

- Developed a cross-platform inventory management app using React Native(Expo), Node.js, Express.js, and MongoDB.
- Built modules for Reception, Gaushala, Kitchen, and Room Management to streamline donations and daily operations.
- Implemented RESTful APIs, secure authentication, and role-based access control; used Git for version control.

Projects

Fitledger

React Native, Firebase, HuggingFace Dataset, Expo

- Built an Android application in React Native for real-time calorie and macronutrient tracking, enabling users to log food intake and monitor nutritional goals.
- Integrated Firebase for real-time data synchronization and secure user data management.
- Leveraged the HuggingFace Food Dataset to deliver accurate nutritional data across 1,000+ food items.

Taekwondo Academy Management System

React, Node.js, Express, MongoDB

- Built a full-stack web application with role-based authentication, enabling students to book trial classes, track attendance, and monitor belt progression.
- Developed an admin dashboard using React and Express for managing students, trial requests, and inquiries.
- Implemented JWT-based authentication and MongoDB data storage.
- Designed a scalable, responsive interface supporting 100+ student enrollments.

Skills

Languages: Python, JavaScript, SQL

Frontend: React.js, React Native(Expo), HTML/CSS

Backend: Node.js, REST APIs

Databases: MySQL, MongoDB, Firebase

Cloud & Tools: AWS, GitHub

Education

Master of Computer Applications, PES University, Bengaluru

2024 – 2026

CGPA: 7.88

Bachelor of Computer Applications, KLE Society's College of BCA RLSI, Belagavi

2021 – 2024

CGPA: 9.1
